

Deborah Robinson

Transformation Director, Rolls-Royce Procurement

Deborah's key responsibilities include:

- Optimising our Procurement operating model to deliver product to the Aerospace Division.
- Defining and executing a multi-year Perform and Transform transformation programme.
- Developing risk frameworks and enhancing resilience planning
- Cost leadership and value creation
- Implementation of our Procurement Digital Strategy
- Overseeing implementation of supply chain Power Programmes to deliver improved cost effectiveness and strengthened resilience.

Deborah's past roles at Rolls-Royce have been:

- Director of Development & Experimental Engineering Civil Aerospace
- New Product Introduction Programme Executive - Trent XWB and Trent 7000
- Operations Executive - Turbines
- Supply Chain Development Executive – Structures & Transmissions
- Chief of Capability Acquisition - Turbines Manufacturing Engineering

Deborah has worked at Rolls-Royce for over 25 years, during which she has built extensive cross functional experience across Engine Test & Development, New Product Introduction, Programme Management, Manufacturing Engineering and Operational leadership roles.

In addition she is a Non-Executive Director - Techjet Aerofoils, Israel.

Deborah has a BEng Aeronautical Engineering, and is a Fellow of the Royal Aeronautical Society.
