"There's No Place Like Home"

Envisage Group Expands Operations to Kansas, U.S.

Envisage Group Limited are excited to announce the launch of Envisage Manufacturing Inc. (EMI) following the acquisition of our new site in Wichita, Kansas, U.S. This significant expansion of our American footprint expands the capabilities we have to offer to our global clients and brings new opportunities within the Aerospace and Defense sectors, supporting the company's long-term growth objectives. The announcement was unveiled at the Farnborough International Airshow as part of our presence on the Greater Wichita Partnership stand.

About Envisage Manufacturing Inc.

Led by an executive team with more than 70 years of combined aerospace experience, our Wichita operation builds on a 30+ year history of supporting major US aerospace OEMs, giving EMI the expertise to meet the industry's rigorous regulatory and quality standards. Our manufacturing facility is equipped with 3-, 4- and 5-axis CNC machining centers, 2-axis turning, and extrusion milling for aluminum profiles including L, T, U, H, and Z sections. We also operate a dedicated shim center, manufacturing precision shims, fillers, and wear pads used in structural assemblies where tight tolerances and accurate alignment are critical. Supported by lights-out automation and Lean manufacturing principles, our processes are designed to deliver repeatable quality, production efficiency, and scalable manufacturing. This expansion enhances our precision-based manufacturing capabilities across industries and across borders, supporting aerospace, defense, space, and other advanced industries.

New Frontiers

Enhancing both capacity and capability by combining the expertise of US and UK teams, we are well positioned to take advantage of new opportunities the American Market has to offer. Maintaining our commitment to excellence, we can offer more integrated solutions, reduce lead times, and respond to the increasingly complex needs of new and existing global clients.

The Air Capital of the World

Wichita, Kansas has a long history in aviation and aerospace, giving it its reputation as being the Air Capital of the World. It is a hub for the aerospace sector with many manufacturers and suppliers having bases in the state, making us best placed for opportunities within the industry. Leveraging local expertise, EMI has direct access

to the states established highly skilled workforce in engineering and manufacturing, with local colleges and technical programs also feeding the area with new talent. Geographically, Kansas is a central state, ideal for supply chain, logistics, and serving both coasts efficiently.

"The breadth of experience, capability, and expertise across Envisage, on both sides of the Atlantic, is a core strength"

Certified for Aerospace

Following Envisage Technologies' recent achievement of AS9100 certification, the acquisition of EMI further strengthens the Group's aerospace capabilities. With EMI's AS9100-certified quality management system and ITAR registration, the Group is well positioned to support customers with increasingly complex, highly regulated, and global manufacturing requirements. Together, these milestones reinforce our commitment to operational excellence, regulatory compliance, and continuous improvement as we enter the next phase of growth.

Executive Statements

Nick College, Envisage Group CEO, states, "Coventry and Wichita share a proud heritage as leading locations of engineering excellence, one renowned for automotive innovation, the other for its leadership in aerospace. As we continue to grow and expand our presence, our focus remains firmly on delivering the same exceptional value for our clients while staying true to the principles that have contributed to our success: quality, reliability, and a commitment to deliver. The breadth of experience, capability, and expertise across Envisage, on both sides of the Atlantic, is a core strength, and I am excited about the possibilities of what the future holds. Thank you to the Greater Wichita Partnership for providing the opportunity to showcase our business and make this announcement at the Farnborough International Airshow."

Robert Skinner, President of Envisage Manufacturing Inc., comments "We are excited to join the Wichita aerospace community. The leadership we have in place brings over 70 years of aviation experience. We look forward to supporting OEM's, Tier 1's, and Tier 2's with our machining and assembly capabilities. We feel that combining EMI's aerospace expertise with Coventry's engineering excellence and innovation provides a wonderful balance for manufacturing in multiple industries globally."

A Clear Future Flight Path

Envisage plans to continue investing in its global operations, ensuring precision, innovation, and collaboration across borders. We are well placed to meet evolving and demanding needs across sectors, strengthening our reputation as a trusted global partner. Get in touch to explore how we can support your next project.

About Envisage Group

Envisage Group Ltd. provides engineering, prototyping, manufacturing, precision solutions, and specialist recruitment services to clients across multiple industries. We support projects from initial concept and design development through prototyping, validation, and production implementation. Our capabilities include engineering solutions, precision metrology services, design and validation, prototyping, dimensional analysis, materials and finishes, bespoke vehicle solutions, and recruitment across engineering, manufacturing, technology, and supply chain sectors, combining engineering expertise, advanced manufacturing capability, and practical problem-solving to deliver reliable, manufacturable solutions. We work with OEMs, manufacturers, and specialist establishments on confidential projects where technical accuracy, quality, and delivery are critical. Headquartered in Coventry, with US operations in Newark, CA, and Wichita, KS, Envisage supports clients across international markets.

Envisage Manufacturing Inc.

Machining the next Chapter of a Wichita Legacy

Precision-based manufacturing for aerospace, defense, space, and advanced industries.

01 / OUR HISTORY

FROM PRECISION PRODUCTS TO ENVISAGE MANUFACTURING INC.

In January 2026, Envisage Group acquired Precision Products Company in Wichita, Kansas, a business with more than 30 years supporting major US aerospace OEMs with precision machined parts and shims.

EMI builds on that local manufacturing legacy with established machining capability, Lean manufacturing principles and planned strategic investment.

Wichita gives EMI a natural home in the Air Capital of the World.

• skilled workforce •
manufacturing heritage

30+ YEARS

Local
aerospace
supply legacy

LEADERSHIP

EMI's leadership has 70 years of combined experience across aerospace & adjacent industries.

2026

New chapter
as EMI

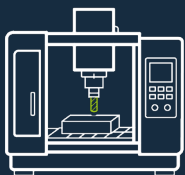

02 / CAPABILITY & GROWTH

**MACHINING CAPABILITY WITH A
CLEAR ROADMAP FOR SCALE**

Lean manufacturing principles supporting quality, efficiency, and disciplined growth.

CURRENT CAPABILITIES

What we do now

3-/4-/5-Axis CNC
Soft metal machining

Lights-out
4-axis automation

Extrusion milling
L, T, U, H, and Z profiles

2-axis lathe
Pins, bushings, sleeves

Shim center
Shims, fillers, wear pads

Lean principles
Quality + efficiency

COMPANY GROWTH

- Large 5-axis CNC machining up to 3 metres
- Soft and hard metal capability expansion
- Robotic automation
- Assembly capability

INDUSTRIES WE SERVE

- Aerospace
- Defense
- Space
- Automotive
- Oil & Gas
- Technology
- Agriculture

WHO WE ARE

A precision-based manufacturing company that embodies a growth platform built on legacy, capability, and investment.

OUR TEAM

- Robert Skinner
– President of Envisage Manufacturing Inc.
- Charles Bristow
– Vice President Commercial Business
