# Why Space?

## 5 MISSIONS FOR A BETTER BRITAIN

### Secure the highest sustained growth in the G7

with good jobs and productivity growth in every part of the country making everyone, not just a few, better off.

### Make Britain a clean energy superpower

to create jobs, cut bills and boost energy security with zero-carbon electricity by 2030, accelerating to net zero.

### Build an NHS fit for the future

by reforming health and care services to speed up treatment, harnessing life sciences and technology to reduce preventable illness and cutting health inequalities.

### Make Britain's streets safe

by reforming the police and justice system, to prevent crime, tackle violence against women, and stop criminals getting away without punishment.

### Break down the barriers to opportunity at every stage

for every child, by reforming the childcare and education systems, raising standards everywhere, and preparing young people for work and life.

# Thank you
