

INDIAN AEROSPACE SUPPLY CHAIN AND PARTNERING MISSION

BANGALORE – HYDERABAD – MUMBAI

27 NOVEMBER – 2 DECEMBER 2010

UKTI is offering a great opportunity for UK aerospace and advanced engineering companies to meet key senior executives from major India aerospace companies including: Hindustan Aeronautics Limited (HAL), Larsen & Toubro (L&T), Godrej and Boyce and other Bangalore, Hyderabad and Mumbai-based manufacturers and suppliers involved in the aerospace supply chain.

India's public and private aerospace sector is buoyant and HAL's partners and suppliers are looking for UK technology partners to help bolster the India aerospace supply chain in order to build the capacity and capability to take on offset work and expansion.

Indian companies have identified interest in the following UK capabilities:

- **Aircraft interiors and furnishing** (fixed-wing and helicopters)
- **Aero Engine Technologies** including Single Crystal Blade Technology and Tier- 1 suppliers of Rolls Royce
- **Electronics, Avionics & Systems** including electrical drives and control systems, embedded technologies for aerospace standards, hybrid drives, electrical connectors and cables, contactors, solenoid valves, servo motors, electrical actuators and pumps, on board electronics, optic sensors, gyro sensors, electronic pneumatics, sensors, gas motors and DC Torque Motors
- **Ground Handling technology and equipment**
- **Materials & Manufacturing** including composites, machining of exotic materials such as Inconel, stainless steel, titanium; airframe parts in fibre-reinforced plastics; quartz yarn and carbon yarn; raw material compounding
- **MRO of systems and accessories** including hydraulics, fuel systems and under carriage
- **R&D Partners** for composites, avionics and simulation
- **Specialist Machining and Machine Tool Capability**
- **Structures** including metal and composites assemblies, integration of hydraulics and systems, parts and subsystems made of aluminium, titanium alloys and advanced composites, aircraft doors, tail boom, landing gears and associated tooling
- **Treatments & Processes** including Aluminium Metallisation, In-Mould Decoration, Investment Casting, bonding of rubber/plastic, Super plastic forming, Thermoforming

Draft Programme

Saturday 27 November

Delegates Depart UK for Bangalore

Sunday 28 November

Delegates Arrive in Bangalore

PM : Informal Mission briefing

Monday 29 November

AM : Visit to HAL

PM : Workshop with HAL Divisions to include divisional overviews, short capability presentations by UK participants and discussion forum

EVE : Reception at British Deputy High Commission

Tuesday 30 November

AM : Seminar with Indian Supply Chain Companies to include Capability Presentations by UK and Indian Participants
Networking Lunch

PM : Pre-arranged One to One Meetings with Indian Supply Chain Companies

EVE : Fly to Hyderabad

Wednesday 1 December

AM : Workshop with Aerospace Supply Chain Companies in Hyderabad to include: capability presentations by UK Participants and pre-arranged one to one meetings
Networking Lunch

PM : Fly to Mumbai

Thursday 2 December

AM : Visit L&T and Godrej Facilities

PM : Workshop with L&T, Godrej and their supply chain companies

EVE : Return Flight to UK

Travel Package & Visas

A|D|S will appoint a travel agent to prepare a package of internal flights and accommodation to fit with the above programme. A detailed flyer will be sent upon receipt of completed registrations forms. A|D|S will also assist with visa invitation letters.

Mission Costs

UKTI has commissioned A|D|S to organise the mission programme and will therefore be covering all administrative costs for the visit including venue hire, networking lunches and domestic mini bus transport. Delegates will therefore not be charged a management fee to participate in the visit. However, the British Deputy High Commission will charge A|D|S an OMIS fee to set up the group programme. This fee will be recharged equally between UK company participants and based on an assumption of 10 companies participating in the mission is anticipated to be in the region of £200 per company. In addition participants will need to cover all their flights, accommodation and personal expenses associated with this mission.

To Participate

Please return the attached registration form by
Friday 5 November 2010.

Application Form

UK AEROSPACE SECTOR MISSION TO INDIA
27 NOVEMBER – 2 DECEMBER 2010
BANGALORE – HYDERABAD – MUMBAI

Company/Organisation and Contact
