

Alice Hignett, Business Operations Graduate, Collins Aerospace

Alice is a recent graduate with an MSc in Sustainable Business Operations Management from Aston University. Since starting as a Business Operations Graduate at Collins Aerospace Actuation Systems in September, Alice has been involved within both Supply Chain and Machining & Processing. With a strong foundation in business operations, project management, and organisational strategy, Alice is leveraging her academic knowledge and practical experience to streamline operations, improve team performance, and deliver high-quality outcomes.
