

**Beth Owen**  
**Head of Logistics and Transport**  
**Airbus**

As Head of Logistics and Transport for Airbus Broughton, within the UK Supply Chain Team for Airbus Commercial. Beth started her career as an electrical craft apprentice on the Single Aisle Programme. Developed through Airbus's apprenticeship schemes, completing a Bachelor's Degree in Manufacturing at Liverpool John Moores, before entering the Quality function as her first role post the Early Careers Schemes. This was the start in a varied career across all of the Airbus commercial programmes, spanning three key functions, Quality, Operations and most recently Supply Chain.

Leading the logistics team through the next few years of change, programme ramp ups, whilst simultaneously driving sustainability improvement and the digitalisation of logistics processes provides an exciting opportunity for Beth and the team in Airbus. Married with two young boys, a keen Netball player, she enjoys being kept busy. The perfect match for a logistics leader! People, Teamwork and Integrity are Beth's core values, this is apparent in the way she leads her team through adversity and uncertainty, especially in recent years. A favourite quote of Beth's, Leading with integrity fosters trust, inspires others and creates harmony between who I am and the impact I leave behind.
